This cake is specially dedicated to an OLD baby boy that was born on 67 years ago, exactly 33 years earlier than my OLD baby Camus. Now, the OLDer baby has diabetes and cannot consume much sugar. Everytime I bake a cake, he will complain that my cake is tooooooo sweet. To cater for his needs, I change my chiffon cake recipe to low sugar version, I choose coffee flavour because... besides my mummy, the one that he cannot let go and cannot survive without is COFFEE...and yes, the "he" I mentioned here is my lovely daddy!

It has been long time I want to come out with low sugar version cake, pastry, and etc, and being lazy is my natural instinct. Dad's birthday is a good reason for me to start my low sugar recipe.
